

**Verizon New England Inc.  
d/b/a Verizon Massachusetts**

**Commonwealth of Massachusetts**

**D.T.E. 02-8**

**Respondent:** Lawrence R. Craft

**Title:** Manager

**Respondent:** Lynelle Reney

**Title:** Director

**Respondent:** Robert D. Jacobs

**Title:** Director

**REQUEST:** Attorney General, Set #1

**DATED:** April 9, 2002

**ITEM:** AG-VZ-1-1 Please refer to page 22 of the April 5, 2002, Panel Testimony, wherein the panelists state, "Verizon has documented such violations as unauthorized entry into CO areas outside of the CLEC's collocated equipment space." Please give the date and location of each instance of this problem. Please also provide written documentation which supports your assertion of the existence of the violation.

**REPLY:** Verizon MA objects to this request on the grounds that the request is unreasonable on its face because of the overly broad scope of the data requested and the burden of compliance. This request has no defined time period, is not limited specifically to Massachusetts, and may seek data that is not readily available.

To comply fully with this request, Verizon MA would need to conduct an extensive and time-consuming search to determine whether and to what extent documents exist that are responsive to this request and then assemble that information. This would require a significant manual work effort since Verizon has not historically tracked the broad scope of information or level of detail in the form requested. Such an undertaking would consume considerable Company resources and impose an extraordinary burden on the Company that is disproportionate to any conceivable probative value that the information may have to the issues raised in this case. Thus, requiring such a burdensome exercise by Verizon is unreasonable and unwarranted for a full and fair adjudication in this proceeding.

**REPLY: AG-VZ-1-1**  
(cont'd)

Verizon MA further objects to this request on the grounds that the request seeks the production of documentation relating to third parties, *e.g.*, competitive carriers collocated in Verizon's central offices. Verizon is not at liberty to disclose this potentially competitively sensitive business information without the express consent of the parties involved.

Verizon MA also objects to this request to the extent that it would encompass information that is subject to the attorney/client privilege, or consists of attorney work product, including the mental impressions, conclusions, opinions, or legal theories of counsel concerning litigation or regulatory proceedings, or was prepared in anticipation of litigation, for use at trial or hearings, and/or for the purpose of settlement.

Notwithstanding its objections, Verizon MA responds as follows:

Currently, Verizon personnel and representatives of competitive local exchange carriers ("CLECs") report alleged security breaches in Verizon's collocated central offices ("CO") to Verizon's Collocation Care Center ("CCC") and/or its Security Department. Upon receipt of a telephone call (1-800-483-4116) or e-mail ([collocare@verizon.com](mailto:collocare@verizon.com)), the Verizon CCC generates a uniquely numbered trouble ticket that includes information relating to the initial contact. These tickets are then categorized and input into a database for record-keeping purposes. Incidents categorized as "central office security breaches" that pertain to alleged vandalism, break-ins, theft, sabotage, etc. are referred to the Security Department for follow-up investigation.

Likewise, Verizon personnel and CLEC representatives may directly report alleged security violations to Verizon's Security Department through its Security Central Desk Line (800 997-3287). Whether by referral from the CCC or via a direct contact, the Security Department establishes a case number and proceeds to investigate the matter (*e.g.*, gathers additional factual information, where necessary, and reviews each case to determine the appropriate action based on the circumstances, evidence and nature of the matter).

**REPLY:** AG-VZ 1-1  
(cont'd)

In response to this request, Verizon will produce readily available information relating to incidents reported to and documented by the CCC and Security Department for Massachusetts and other Verizon jurisdictions. This includes a summary report and individual tickets from the CCC for the former Bell Atlantic region from January 2001 to date (Attachment 1), and a summary report and investigative data from the Security Department for the entire Verizon footprint from January 2000 to date (Attachment 2). Verizon will subsequently produce calendar year 2000 data from the CCC for the former Bell Atlantic region to the extent that it becomes available.

Information relating to alleged collocation security violations prior to January 2000 was not routinely tracked or documented on a centralized or mechanized basis by Verizon or its predecessor companies. The only relevant, readily available data prior to January 2000 is contained in Verizon's October 12, 2000 Comments in FCC Docket No. 98-147 and CC Docket No. 96-98 as Attachment B-1 to the Declaration of Michael D. Poling. That attachment, together with available supporting documentation, is included as Attachment 3 to this request. Attachment 4 to this request contains available supporting documentation for the Washington state security violation that occurred on November 6, 2001, and is described on page 22, footnote 19 of Verizon MA's Direct Panel Testimony.

Due to the voluminous nature of the above material, Verizon MA will provide one copy to the Department only and will make a copy available for inspection by parties at the Company's offices at 125 High Street, Boston, Massachusetts, at a mutually agreeable time. For confidentiality reasons, Verizon has redacted from that documentation data relating to the identity (e.g., name, address, telephone number) of carrier personnel and/or Company representatives.

**REQUEST:** Sprint Communications Company L.P.'s, Set #1

**DATED:** April 23, 2002

**ITEM:** Sprint-VZ 1-23 Page 39, Lines 16-17: Please list the "critical" COs in Massachusetts where Verizon proposes that virtual collocation only should be required. If Verizon has not yet determined which COs are "critical", please provide a Verizon's estimate of which COs are "critical".

**REPLY:** See Verizon MA's Reply to XO 1-4. Since no criteria has been established by the Department and Verizon MA to determine what qualifies as a "critical" CO, it would be speculative for the Company to identify projected COs at this time.

**D.T.E. 02-8**

**Respondent:** Francesco S. Mattera  
**Title:** Director

**REQUEST:** Qwest Communication Corporation, Set #1

**DATED:** April 16, 2002

**ITEM:** Qwest 1-11 Provide a list of every Verizon CO that currently has a separate space for collocators. Provide a list of every Verizon CO that currently has a separate entrance for collocators.

**REPLY:** See Verizon MA's Replies to Allegiance 1-1 and 1-9 regarding separate space in Massachusetts COs for physical collocation arrangements. See also the attached list, which identifies 38 Massachusetts COs where there is currently no separate, secure space available for collocation. The information requested for a list of Massachusetts COs with separate entrances is not readily available.

It should be noted that Verizon MA would continue to provide physical collocation arrangements in COs where separate entrances for collocators do not exist provided that the use of a common entrance or common vestibule would not enable collocated carrier personnel to gain access to Verizon MA's separate and secure equipment areas located behind locked doors in separate rooms or on separate floors.

**Verizon New England Inc.  
d/b/a Verizon Massachusetts**

**Commonwealth of Massachusetts**

**D.T.E. 02-8**

**Respondent:** Lynelle Reney  
**Title:** Director

**REQUEST:** Qwest Communication Corporation, Set #1

**DATED:** April 16, 2002

**ITEM:** Qwest 1-36 Please provide a copy of Verizon's current policy regarding which Vendors can be hired by CLECs to work in Verizon's central offices.

**REPLY:** See attached. This information is also available on Verizon's Wholesale Website (CLEC Handbook, Volume 1):  
  
<http://www22.verizon.com/wholesale/handbooks/toc/1,3989,c-1,00.html>

VZ # 80

#### 8.7.2 Supplier Quality Assurance, Central Office Engineering, And Installation Services For Collocation Purposes In Verizon

##### General

The Collocator must use a single engineering and installation (E&I) supplier on an order outside of the collocation cage. If the approved supplier does not have NEWS or Infobank access, the supplier must subcontract with an approved supplier for engineering that presently has access to the aforementioned record system[s] when the application requires the supplier to update Verizon's data bases.

##### Central Office Record Access – News and Infobank

##### North

Verizon's internal engineering group (EI) and Verizon's approved suppliers that have access to NEWS are the only organizations allowed to provide engineering services outside of the collocation common area in Verizon-North. When a Collocator uses Verizon's internal engineering (EI) group for installation services, it shall use a Verizon approved engineering supplier with access to the appropriate record system (NEWS).

##### South

Verizon's approved suppliers that have access to Infobank are the only suppliers allowed to provide engineering services outside of the collocation common area in Verizon-South.

##### Engineering and Installation Services

##### New England

Physical Collocation – Collocator must use Engineering and/or Installation service companies that meet the same requirements as Verizon's approved suppliers. A Verizon approved supplier shall run cabling from the collocation cage to the common equipment.

Virtual Collocation – Collocator must use one of Verizon's approved suppliers for engineering services and Verizon's internal EI group for installation.

##### New York

Physical Collocation – Collocator must use Engineering and/or Installation service companies that meet the same requirements as Verizon's approved suppliers. A Verizon approved supplier shall run cabling from the collocation cage to the common equipment.

Virtual Collocation – Collocator must use a Verizon approved supplier to provide engineering services. Collocator must use a Verizon approved supplier or Verizon's internal EI group for installation services.

##### South

Physical Collocation – Collocator must use Engineering and/or Installation service companies that meet the same requirements as Verizon's approved suppliers. A Verizon approved supplier shall run cabling from the collocation cage to the common equipment.

Virtual Collocation – Collocator must use a Verizon approved supplier.

**Verizon Approved Supplier Lists**

The Transport Supplier Table provides a list of approved suppliers by geographic area in Verizon. These suppliers can also be used to perform installation work for the physical collocation arrangements.

**Verizon New England Inc.  
d/b/a Verizon Massachusetts**

**Commonwealth of Massachusetts**

**D.T.E. 02-8**

**Respondent:** Lynelle Reney  
**Title:** Director

**REQUEST:** Qwest Communication Corporation, Set #1

**DATED:** April 16, 2002

**ITEM:** Qwest 1-37 Please provide a copy of Verizon's "approved vendor" list. If any vendors on this list are only approved for particular types of work/tasks, identify the type of work/tasks and the vendor.

**REPLY:** See attached. This information is also available on Verizon's Wholesale Website (CLEC Handbook, Volume 1):  
  
<http://www22.verizon.com/wholesale/handbooks/toc/1,3989,c-1,00.html>

VZ # 81

3-12-2002

**VERIZON (formerly Bell Atlantic – fBA) APPROVED AND AUTHORIZED ENGINEERING AND INSTALLATION VENDORS**

The following tables contain Verizon (fBA) approved and authorized Vendors. The Vendors listed have met the requirements of Verizon's (fBA's) Network Engineering Standards, Q001106-00, Approval, Authorization, & Monitoring of E&I Suppliers.. An approved Vendor may provide services for Verizon (fBA) as listed in the following tables. Authorized Vendors may provide services for collocators but **Authorized Vendors shall not be used for Verizon (fBA) orders**. Refer to the "Service/Product" column for specific work clarifications. Any Approved Vendor may perform work for a collocator where allowed by the applicable FCC tariff and union.

**Section A: contains Verizon's approved Switch and Transport Vendors**

**Section B: contains Verizon's approved Power Vendors**

**Section C: contains Authorized Vendors for use by Collocators**

**Section A: Verizon (fBA) Approved Switch and Transport Vendors**

**NOTES:**

A = Approved, not a Turf Vendor RO = Removal Only T = Turf  
CA = Conditionally Approved SEO = Specific Equipment Only  
D = Developmental SW = Switch

**Verizon New England Inc.  
d/b/a Verizon Massachusetts**

**Commonwealth of Massachusetts**

**D.T.E. 02-8**

**Respondent:** Lynelle Reney  
**Title:** Director

**REQUEST:** Qwest Communication Corporation, Set #1

**DATED:** April 16, 2002

**ITEM:** Qwest 1-38 Please provide a list of vendors that Verizon has approved for use by CLECs that are NOT also on Verizon's own list of contractors as vendors that Verizon would hire to perform its own central office work

**REPLY:** No such document exists. Verizon MA only uses approved or certified vendors. However, CLECs may opt to use unapproved/uncertified vendors for work inside their collocation facility only. Current procedures require CLECs to utilize approved or certified vendors when conducting work in Verizon MA's portion of the central office.

Verizon does not "approve or certify" vendors. Rather, vendors are approved or certified by industry standard sources, such as Telecordia. Verizon MA has no knowledge of vendors approved or certified only for CLEC work

**Verizon New England Inc.  
d/b/a Verizon Massachusetts**

**Commonwealth of Massachusetts**

**D.T.E. 02-8**

**Respondent:** Lynelle Reney

**Title:** Director

**Respondent:** Lawrence R. Craft

**Title:** Manager

**REQUEST:** Conversent Communications of Massachusetts, Set #1

**DATED:** April 23, 2002

**ITEM:** Conversent 1-1 Please refer to page 2 of Verizon's Panel Testimony where it references the currently available collocation arrangements and the applicable security measures for central offices and other collocated facilities. (a) Please provide a list that identifies by location each of the Verizon-MA' central offices and the specific types of collocations that exist in each of those central offices; (b) For each of these central office locations, please indicate whether such office is equipped with (i) surveillance cameras; (ii) electronic card readers; (iii) whether badges with computerized tracking systems have been issued to persons having access to such central offices. If badges with computerized tracking have been issued, please indicate the number of badges that have been issued to Verizon employees and the number of badges that have been issued to CLECs in Massachusetts.

**REPLY:**

- a) See attached.
- b)
  - i. See Attached for a list of Massachusetts COs equipped with closed circuit television systems for collocation areas. This list does not include COs where security cameras may be used for non-collocation areas.
  - ii. See Verizon MA's Reply to Qwest 1-20
  - iii. Verizon MA issues ID cards and access cards, not badges with computerized tracking.

**Verizon New England Inc.  
d/b/a Verizon Massachusetts**

**Commonwealth of Massachusetts**

**D.T.E. 02-8**

**Respondent:** Lynelle Reney

**Title:** Director

**Respondent:** Lawrence R. Craft

**Title:** Manager

**Respondent:** Francesco S Matera

**Title:** Director

**REQUEST:** Allegiance Telecom of Massachusetts, Inc., Set #1

**DATED:** April 12, 2002

**ITEM:** AL-VZ 1-1 For each central office in which at least one CLEC is collocated, please provide the following:

- (a) the address and any other identifying name of the CO;
- (b) a diagram of the floor plan of each CO, identifying (i) areas occupied by CLEC equipment only, (ii) areas occupied by Verizon equipment only; (iii) areas occupied by intermingled CLEC and Verizon equipment; (iv) the location of shared facilities, e.g., loading docks, staging areas, and restrooms; and (v) the path taken by CLEC employees, agents, and vendors to gain access to CLEC equipment and shared facilities;
- (c) a copy of the CO-specific security plan, if one exists. If one does not exist, please provide a copy of the security plan that otherwise applies to the CO;
- (d) the number of CLECs collocated at the CO;
- (e) the number of CLEC employees, agents, or vendors that have visited the CO in each month in which CLEC equipment has been collocated there, and the total number of such visits;
- (f) the number of Verizon employees, agents, and vendors who have visited the CO during those months, and the total number of such visits; and

- (g) the number of Verizon employees who are assigned to the CO on a permanent basis.

**REPLY:**

- a) See attached for a list of COs where at least one CLEC is collocated.
- b) Verizon MA objects to this request on the grounds that it is unreasonable because of the overly broad scope of the data requested and the burden of compliance. Verizon MA also objects to this request on the grounds that it seeks information that is confidential in nature and is irrelevant, immaterial, and not reasonably calculated to lead to the discovery of admissible evidence.

Typically, diagrams of CO floor plans, where readily available, include the name of the CLEC and the collocated space occupied by that CLEC by location and type of collocation arrangement. Such diagrams also identify the location and specific type of Verizon equipment, as well as the Company's designated areas of future growth. They are highly confidential, internal business documents used by Verizon for planning purposes to determine where physical collocation is available. Verizon MA provides CLECs with information regarding the amount of square footage in a CO available for collocation space on its Company website.

As a general practice, Verizon does not provide collocated carriers with copies of CO floor plans – even on a confidential basis. This is because the presence of collocated carriers in a particular CO is highly commercially sensitive, third-party data, which Verizon is not at liberty to disclose. Likewise, CO floor plans reveal competitively sensitive information about Verizon's current business operations and anticipated growth.

The only exception to Verizon MA's general practice of not disclosing CO floor plans is when a CLEC seeks to collocate physically in a CO where there is no longer available physical collocation space. In those limited cases, Verizon MA has allowed CLEC confidential access, on Company premises only, to the CO floor plan, and has submitted a diagram to the Department with its physical collocation waiver or exemption request on a proprietary basis in accordance with federal requirements. Disclosure of all CO floor plans in this proceeding is totally unwarranted and would be detrimental to collocated carriers and Verizon MA by providing an unfair competitive advantage to other service providers.

In addition, it is inappropriate and unnecessary to disclose this highly competitively sensitive information in this proceeding because it is not relevant to the issues to be decided in the case. This proceeding deals strictly with the issue of collocation security procedures. Moreover, all physical collocation arrangements (caged and cageless) in Massachusetts are currently located in secured space separated from Verizon MA's equipment in the CO, with one exception.

Verizon MA recently determined that there is only one CO in Massachusetts where a cageless collocation arrangement exists that is located in an unsecured area and cannot be converted to a separate, secured space. This is also the only CO in Massachusetts where a CLEC has access to restroom facilities in unsecured space because Verizon MA's equipment is intermingled. In all other collocated COs in Massachusetts, CLECs are provided reasonable access to restroom facilities in separate areas using secured pathways, *i.e.*, secured from Verizon MA's equipment. Likewise, current procedures provide CLECs with reasonable access to loading docks and staging areas, the use of which can be coordinated with Verizon for CLEC vendor equipment deliveries and assemblage during prearranged mutually agreeable time periods. Therefore, the information requested is irrelevant, unreasonable, and beyond the scope of this proceeding.

- c) See attached. This document is also found on Verizon's website: <http://128.11.40.241/east/wholesale/html/pdfs/RSECOL00.pdf>, as reflected in the Collocation Handbook-Section 4, Security Guidelines.
- d) See Verizon MA's Reply to (a) above.
- e) The requested information is not readily available.
- f) The requested information is not readily available.
- g) See attached. This reflects only the COs where CO technicians are based and from which they are dispatched. It does not represent a fixed number of employees permanently assigned to a particular CO. This is because Verizon's CO workforce is assigned on a dynamic basis, which means that although technicians may be assigned to a primary CO, they may be dispatched to multiple COs depending upon workload.

**Verizon New England Inc.  
d/b/a Verizon Massachusetts**

**Commonwealth of Massachusetts**

**D.T.E. 02-8**

**Respondent:** Francesco S Matera  
**Title:** Director

**REQUEST:** Allegiance Telecom of Massachusetts, Inc., Set #1

**DATED:** April 12, 2002

**ITEM:** AL-VZ 1-9 Referring to page 23 of Verizon's Panel Testimony, in which the witnesses propose "relocating existing *unsecured* CCOE arrangements to secured, separated areas, where space permits, or otherwise converting them to virtual collocation arrangements," in which central offices does Verizon contend that relocating CCOE arrangements to "secured, separated areas" would not be feasible? Produce all documents related to Verizon's analysis in concluding that such relocation would not be feasible.

**REPLY:** No document exists. Since filing its Panel Testimony on April 5, 2002, Verizon MA has determined that there is only one CCOE arrangement in Massachusetts (*i.e.*, Hopkinton CO) that is located in unsecured space and cannot be relocated due to a lack of separate and secure space in the central office. See also Verizon MA's Reply to Allegiance 1-1(b).
